Course Information

Dates, Times, and Locations: The course will meet from 9 am to 4 pm on September 29th (Metro Hall, Room #308), October 20th (City Hall, Committee Room #4), November 3rd, (Metro Hall, Room #309), November 17th (Metro Hall, Room #310), and December 1st (Metro Hall, Room #310). All dates fall on a Friday.

Backup date: December 8th.

Course Objectives: This course provides an advanced overview of local government in Canada. It surveys the structures, functions, and financing of local governments, and examines their relations with federal and provincial governments. This course is also a gateway for the rest of the program. It will give students the foundational knowledge needed to understand many of the most important issues facing local governments in Canada.

Course Organization: The course will consist of a combination of lectures, class discussions, group work, and student presentations.

Readings and Materials

Required Textbook: Andrew Sancton, *Canadian Local Government: An Urban Perspective*, 2nd edition (Toronto: Oxford University Press, 2015) – copies are available in the UWO bookstore.

All other assigned readings will be available electronically, either through the course's OWL site or on-line. Assigned reading should be done **Before** the class in which it is to be discussed.

Requirements:

1. *Two Short Reading Responses.* Every student is required to submit a short (**ONE page, single-spaced**) reaction paper on the assigned readings for two non-consecutive sessions (beginning October 20th). These responses should speak to some of the main themes and issues raised in the readings, but they are **NOT** intended to be summaries. You are encouraged to reflect on any ideas or approaches that you agree or disagree with, to develop an argument that ties some or all of the readings together, and/or to incorporate your own personal experiences.

You will be responsible for presenting one of these responses to the class (see *Class Participation*). You should be prepared to help lead class discussions for both of the weeks that you prepare a response for, and especially during the class in which you present.

Responses are to be submitted at the start of the classes covering the readings that you have responded to. *Late Papers will not be accepted.*

2. *Class Participation.* Two items make up the class participation grade:

a. **Attendance and Participation.** You must attend all classes, keep up with the readings, and participate during discussions. If you are unable to attend a particular class, you should advise the instructor in advance.

b. **Reading Response Presentation.** You will be required to present one of your reading responses to the class. These presentations should be **approximately 5 minutes in length**. The presentation schedule will be determined during the first class. Unless agreed to in advance by the instructor, no audiovisual equipment will be used for these presentations.

3. *Research Project.* In consultation with the instructor, students should choose a research topic related to any of the topics covered below. Two items make up the research paper grade:

a. **Research Proposal.** Students will submit a 2-3 page (double-spaced) research proposal by **November 3rd**. The aim of the research proposal is to focus your research question and develop a strategy for completing the rest of your project.

b. **Research Paper.** The paper should be between 2,500 and 3,000 words in length and must be submitted by **December 11th at the latest**. Papers submitted after this date will be penalized two percentage points for each day (including weekends) that the paper is late.

Evaluation

1. Two Short Reading Responses:	20% (10% each)
2. Participation:	25%
3. Research Project:	
a. Proposal	10%
b. Paper	45%
